

## Water Station Directions for Use

### **Purpose:**

Three water refilling stations have been constructed for a backup potable water supply in the event of a drought, flood, or other natural or manmade emergency.

The stations are intended to be available to single family well owners whose wells have gone dry or are otherwise damaged or contaminated by an emergency event, rendering them unusable.

It is not intended for use by well owners whose wells have ceased to produce adequate amounts of water due to age or lack of maintenance.

### **Procedure:**

A person wishing to use the water station must make a request to the LC Public Works. The Director or his designee will verify that an emergency exists in the area where the applicant lives.

After water use has been approved by the Public Works Director, the water user can access the water station at one of the following Area Shops.

Area 2	Area 5	Area 7
360.748.2359	360.978-5879	360.497.3182
307 Spooner Rd.	162 Brim Rd	8911 US Hwy 12
Chehalis, Washington	Onalaska, Washington	Randle, Washington

The shops are open from 6:30am to 3pm M – F. Access will only be provided to the water user during shop business hours.

Upon entering County property the water user must check in with the Shop manager or administrative assistant. The water user must also check out before they leave the premises.

The water user must provide their own means of transporting water, water hoses, and water vessels.

If the water user is found to misuse or cause damage to County property, the PW Director can revoke water use privileges and the water user will no longer be able to enter the Area Shop premises.
