Funds used to account for assets held by a government in a trustee capacity for individuals, private organizations, other governments and/or other funds.

ASSESSED VALUATION:

BOCC:

BUDGET:

A plan of financial operation embodying an estimate of proposed expenditures for a given period and the proposed means of financing them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year. The term "budget" is used in two senses in practice. Sometimes it designates the financial plan presented to the appropriating body for adoption and sometimes the plan finally approved by that body. It is usually necessary to specify whether the budget under consideration is preliminary or approved.

BUDGET DOCUMENT:

The instrument used by the budget-making authority to present a comprehensive financial program to the appropriating body. The budget document usually consists of two parts. The first part contains a message from the budget-making authority, together with a summary of the proposed expenditures and the means of financing them. The second consists of schedules supporting the summary. These schedules show in detail the information as to the past years' actual revenues, expenditures, and other data used in making the estimates.

BUDGET MESSAGE:

A general discussion of the proposed budget as presented in writing by the budget-making authority to the legislative body. The budget message should contain an explanation of the principal budget items, an outline of the government's experience during the past period and its financial status at the time of the message, and recommendations regarding the financial policy for the coming period.

BUDGETARY CONTROL:

The control or management of a government in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.
